

Renaissance Home Connect

- Allows a parent to sign up for emails notifying them of when their child takes an AR test or passes some AMath objectives.
- Allows students or parents to use Book Finder. Book Finder helps students and parents identify the book's reading level and how many points the book is worth.
- Home Connect also allows students and parents to see how a student is progressing in AReading and AMath.
- Math practices can also be assigned through Home Connect. Math practices are not encouraged at home, unless the teacher requests that to be done.

Go to this link, to log in with your student's information and register for emails when you student takes a test or passes objectives:
